The Caribbean Association for the Advancement of Curriculum Studies (CAACS) is pleased to invite abstracts for its inaugural conference to be held on March 12, 2020. Education systems throughout the Caribbean have come under increasing pressure to adopt and modify to meet the demands of our changing societies and globalized world. Consequently, Caribbean education continues to experience efforts at reform intended to address perceived problems in the system. The curriculum has been central in these reform efforts as stakeholders aim to enable learners to acquire knowledge, develop conceptual and intellectual skills, attitudes, values and abilities necessary for both their personal development as well as addressing the societal, economic and environmental realities at the national, regional and even international level. It is within this context that the CAACS invites academics, teachers, students and other stakeholders to join us in not only reflecting on, but also shaping the future of Caribbean curriculum making by being a presenter at the 1st conference of the Caribbean Association for the Advancement of Curriculum Studies.

Theme
“Caribbean Curriculum Making: Reflecting on the past; shaping the future”

CALL FOR PAPERS
